There is racial profiling and corruption in the police force.

Police should not let their biases affect their police work.

Racial profiling naturally takes place in low income communities. What can we as a community and law enforcement do to change that?

We are experiencing bullying on social media.

What are the laws about things like nude pictures, and bullying, on social media?

There is violence in our neighborhoods and in our schools.

When two people are fighting, it will travel on social media. But the end where they hug it out- nobody will post about that.

We should talk to a teacher or our parents about bullying.
We should help people who are feeling left out.

A bully would often get bullied so they bully other people to distract themselves from their hurt.

Car racing and traffic incidents. What are the rights of a person who gets stopped?

We have to know the process of being responsible for what you do.

Police address each issue case by case. There are good folks, and there are bad.

Most police are there to help. You cannot believe everything you see on TV or social media because it is usually not the whole truth.

Thank

You...
